Dental Assistant

OLGA DELRIO  
Front Desk

ANA MARICHAL  
Insurance Specialist

KARLA REYES  
Patient Specialist

GWEN MARSICO  
Social Media Specialist

## THE HISTORY OF DENTISTRY

### Doc Holliday: Gunslinger, Gambler or Dentist?

John Henry Holliday, better known as "Doc", was an early adopter of the "career change" mentality. Beginning his professional life as a dentist, "Doc" Holliday contracted tuberculosis. It was unclear whether he had contracted it from his mother or a patient; however, he was motivated to take steps to face his situation directly.

Holliday left his practice in Atlanta and traveled south west, moving to Texas, where he hoped the climate and adapting a new lifestyle would give him a better quality of life. It was there that he became a professional gambler and learned he could be more profitable than he ever was at dentistry. The life of the gambler Holliday was riddled with run ins with the law. He met the likes of the Earp Brothers – Wyatt and Virgil and became famously part of history in the 1881 gunfight at the O.K. Corral in the Tombstone, Arizona territory, where he was recruited by Virgil and deputized for his gunslinger skills.

Throughout his gunslinger and gambler careers, he still engaged in dentistry when the opportunity presented itself.

Don't gamble on your dental health by overlooking the importance of a good oral hygiene plan. Establish your oral hygiene plan today by calling for an appointment.
